

PHOTOSHOP ELEMENTS EDITING TECHNIQUES

01. Who is this course for?

This 5-week course will give you an opportunity to explore Photoshop Elements editing software.

02. What will I learn?

Learn how to remove unwanted parts of a photograph or use special effects to change the way they look. Find out how to use a range of features within the Toolbox in Photoshop Elements and get a basic understanding of layers. Learn how to: - add text to an image - use a variety of selection capture tools - edit and remove unwanted objects - use 'Guided' editing techniques to repair or restore images.

03. How will I learn?

Your progress and achievements will be recognised and recorded throughout your course in several ways. For example: practical tasks, written and verbal feedback from your tutor, practising and completing exercises and/or a learner diary.

04. What will I need to bring?

Memory stick with some photographs on in jpg format, pen, notepad and plenty of enthusiasm.

05. What skills or experience do I need?

No prior knowledge required although you will need to have good keyboard and mouse skills.

06. How will I be assessed?

Non-accredited

08. How will I be supported in my learning?

Once you start, if you have further queries and/or support needs, please talk to the tutor. We also offer support to help people with learning difficulties and/or disabilities. If you have a disability, learning difficulty, health problem or mental health difficulty that may affect your learning or participation, please contact us for further advice.
